

# Gilmore Painting & Decorating, Inc.

## Exterior Color Schedule

Color schedules designate the color(s) and sheen used on each specific item / area on your home. If a location does not apply to what's being painted simply write "n/a" in the column.

\*\* Unpainted surfaces are not painted with the project, unless specified in the Scope of Work. The unpainted surfaces may also consist of gutter / downspouts, doors, and windows. These items may have a manufacture's finish and do not require painting under normal conditions.

Paint Manufacture	House / main bldg	Sheen *	Color	Number
	Siding			
	Trim (fascia, wraps,			
	Entry doors, screens, storm			
	Windows, screens, storms			
	Overhead garage doors			

Paint Manufacture	Garage / out bldg	Sheen *	Color	Number
	Siding			
	Trim (fascia, wraps,			
	Entry doors, screens, storm			
	Windows, screens, storms			
	Overhead garage doors			

Remove holiday light nails and hooks?	Yes	No
Does existing outdoor carpet stay?	Yes	No
Remove window hardware or screens / storms?	Yes	No
Remove / replace cover plates	Yes	No

These colors are chosen by the owner / authorized person prior to scheduling an exterior painting project. Once this color schedule is delivered to GP&D and the earnest collected, the materials are ordered and a date is set for the project. If for any reason the colors are changed after this time, an additional restocking charge is added to your account for those purchased materials. Those materials are delivered to the owner / authorized person. A change order will then be submitted to the client for the additional cost of the materials purchased to correct the color.

I understand these conditions and agree to pay the additional charges GP&D may incur to change colors from what I have designated above.

Signed \_\_\_\_\_ date \_\_\_\_\_

It is our policy to remain good stewards of the environment and thus we practice correct disposal methods of waste approved by local, state and federal authorities. In the spirit of minimizing waste GP&D leaves only marked quart cans of the paint used on the project. We do this to minimize the space you need for storage purposes. Upon request we can leave the paint in a gallon can.
